Had Officer Dillard observed nationally recognized protocols, it is likely, if not certain, that Mr. Timpa would have survived his encounter with Officer Dillard. He is further expected to testify that the other DPD Defendants failed to intervene when they had a duty to do so and that their failure was the result of deliberate indifference. See his deposition and written report for more details.

Among his specific findings are that the decedent's cardiovascular system "did not indicate a significant increased risk of sudden cardiac death, in the absence of the restraint related asphyxia." The electrocardiogram findings at the scene further confirmed death by asphyxia. Dr. Wohlgeleitner further responds to contentions made by Defendants' designated experts. See his written report for more details.
